

## ***TimingCube* MANAGEMENT**

### **Andreas Schreyer Vice President of Marketing and Partner**

As Vice President of Marketing and Partner of *TimingCube*, Andreas is responsible for the company's marketing strategy and operations, as well as customer satisfaction initiatives.

Andreas has over 25 years of experience in the electronics, computer and software industries. His career began in engineering but rapidly evolved to the product management and marketing disciplines, with positions of increasing responsibility for Fortune 500 corporations such as Motorola and Tandem Computers (now part of Hewlett Packard), as well as high-technology start-ups.

In the years leading up to his involvement with *TimingCube*, Andreas served in executive positions at a number of start-ups including Vice President of Marketing at Internet Dynamics, an Internet software company specializing in enterprise security, and Senior Vice President and General Manager of a business unit at Globeset where he was instrumental in articulating and implementing eCommerce payments infrastructure strategies.

Shortly after Andreas embarked on a consulting engagement with *TimingCube* in early 2003, he and the co-founders Frank Minssieux and Dr. Serge Dacic recognized the natural synergy between his marketing talents and his long standing stock market investor and trader undertakings. Their relationship rapidly blossomed with *TimingCube* beginning to gain industry recognition and the subscriber base growing dramatically.

Andreas received a Degree of Electrical Engineering from Ecole Technique Superieure, Geneva, Switzerland and is a published author.
