

## ***TimingCube* MANAGEMENT**

### **Frank Minssieux President and Co-Founder**

As President and Co-Founder of *TimingCube*, Frank is responsible for the overall strategy and operations of the company as well as research on the timing model.

Frank has more than 19 years of experience in the computer and software industry. His career includes a wide spectrum of engineering and management positions in companies ranging from startups to Fortune 500 corporations.

Frank spent 15 years at IBM where he held technical and managerial positions in the US and Europe. He has extensive experience in designing and architecting e-Business solutions utilizing Internet and Intranet technologies.

Frank's interest in the markets stems from more than ten years as a part-time student and investor. In partnership with co-founder Dr. Serge Dacic, Frank leveraged his computer science background and analytical skills to develop an investment model aimed at longer-term trend timing.

The promise of that model led Frank and partner Dr. Serge Dacic to found Fraser Partners LLC and, in turn, start offering the *TimingCube* service in September 2001.

Frank has a M.S. in Mechanical and Electrical Engineering from Ecole Speciale des Travaux Publics, Paris, France.
